Project Title: Tea

Ideally this would be a multiple-paged site, with tabs to navigate through the different sections. Special focus will be on tea taken in its natural plant form rather than in packaging.

- **Home Page/Introduction** – Keep it simple; photo of tea as home page background with word “Tea” and its Latin name. Links to sections within the topic up top.
- **History/Origins**
- **Cultivation & Harvesting**
- **Chemical Composition** (Health effects)
- **Tea Processing**
- **Flavoring**
- **Preparation** of various types of tea
- **Tea consumption** in varying cultures
- **Sources** – List of sources for entire site, including Wikipedia page and links to images
